County School
District

Uintah County
School District

USING 3-D and SATELLITE MAPS - INSTRUCTIONS

1. Go to www.uintahbasintah.org
2. Go to our “Resources” page (Top left)
3. Select “History Maps”
4. Select the “University of Texas Map Collection” or other map site you are familiar with
5. Select the map subject of your search and **Print** the map you selected.
6. In your printed map **find specific sites** (rivers, cities, towns, mountains...) and become familiar with their position in your map
7. Go to your **Google Earth** site
8. Search for the **area** that will **match** your printed map.
9. Search for **specific sites** that will **match** your printed map. If this is your first time, sometimes it is a little difficult, however, with practice you will be an expert after repeating the process five times

Remember: You can mark your Google Earth Map with the tool “**Placemark**” (It is a small “push pin” on the top of your Google Earth toolbar)

Please, call me if you need help: (435) 722-1736
